I have a new book out, and I'm not sure how it's going to go over with some people. It's a little more "out there" than some of my others. But I think it has an important message, and it has already gotten some good reviews on Amazon, so maybe it isn't as hard to swallow as I think. It's called *Fixing Abraham: How Taming Our Bible Heroes Blinds Us to the Wild Ways of God*. Check it out at Amazon or at the store on the

[Walk Thru the Bible](#)

web site.
